<http://newwaveofbritishheavymetal.com>

### Introduction

It's the mid-1970s in the UK. A fresh "musical movement" breaks out almost overnight. It quickly becomes tagged as the New Wave of British Heavy Metal – a.k.a. NWOBHM. It's heavy metal heaven! And NWOBHM is as relevant today as it was in the 1970s/1980s. Highly influential then and now.

NWOBHM spawned great bands such as Iron Maiden, Def Leppard, Saxon, Diamond Head, Angel Witch, Tytan, Demon, Girlschool, Praying Mantis, Tygers of Pan Tang, Vardis, Mythra and many, many more.

I grew up in the NWOBHM glory days and have remained a huge fan ever since. So much so that I put together the "humble" blog together as a bit of a tribute and reference point.

Here's brief document which I'll call a New Wave of British Heavy Metal cheat sheet – a collection of useful links and related resources. Use it as a reference source to discover more about the magical world NWOBHM.

It's yours for nowt. I do hope you find it useful. Please feel free to pass it along to your friends, social media followers etc.
